Draws and Order of Play: Thursday July 17th in the afternoon.

The tournament will be played in the afternoon except for the finals that in case of being played on Saturday, will be played in the morning. The Organization, due to the number of participants, may decide to finish the tournament on Friday. In case of a change this will be notified in advance.

Things to keep in mind before registering:

-The official tournament dates are Saturday 19 to Saturday 26. The player who registers must be available to play on these dates. However, the Organization can modify the start and end dates of the tournament with previous notice, this depends a lot on the number of players registered in each category and their classification. From the experience of previous years, we have not played qualifying phase in any category, but it is important to keep in mind that it can happen. If there is no qualifying, the tournament will start on Monday with the categories with more players registered.

-Once the draws are published, the registration fee will not be refunded in case the player withdraws or does not play for any reason.

-The finals will initially be played on Saturday morning, July 26th unless the Organization gives notice of a change before. It is important that, if a player registers, he/she is available to play the finals on Saturday morning. In case of no-show for the finals, the player will not receive any of the prizes.

-Please note that, to open a category, we need at least 4 players. If you have applied for a license and the category is not opened, the license fee will not be refunded.

-When participating in the tournament, the training will be adapted. The Academy will give priority to training rather than the tournament and will at least train the morning session in case it is match day. Before the match, the players will follow our routine.

-This tournament follows the National rules of the Royal Spanish Tennis Federation (RFET) and scores for this only (not UTR).
